Secunderabad May 31, 2021: With the extended relaxation timings from the Lockdown, till 1 PM and the additional time of 1 hour for people to return their homes, traffic got a bit decongested. However the Marshals were back to implementing the lockdown timings and assisting the police in educating the violators and restricting the movement of people without necessary passes or need.

**A snapshot of today's activities**

Our Marshals encountered this couple with their kid on an evening walk on the streets without mask. They were made aware of the norms of lockdown and the Covid protocol of wearing masks in public.

**Other Activity:**

**Marshals Team E** had a meeting of its members over Zoom and shared their experiences and the thoughts and plans for the forthcoming week. It was discussed to approach the citizens with sensitivity and be firm in their communication of maintaining the traffic and Covid protocols. Marshals shared their experience of tackling unruly citizens and how to effectively tackle them with the support of the local police. Dr Raghuveer requested the Marshals to enrol more new and dedicated members to the forum.
